3 October 1969

MEMORANDUM FOR: Chief, Human Factors Section, ATB/TSSG/NPIC

SUBJECT : Continuing Action Items Requiring the Attention of the
IIRP Technical Monitor

1. Two items of a continuing nature which will require the attention of the new IIRP technical monitor are attached.

2. Attachment 1 is my latest revision of a memorandum designed to obtain permission for security release of [] article for publication. Since this item will undoubtedly require future justification (i.e., after change of the IIRP technical monitor) it would seem appropriate that [] review my proposed revision and adjust it to reflect his thoughts on the subject.

3. Attachment 2 is the paper work dealing with the "Selection of Operators for the New High Precision Stereo Comparator." This, of course, is in suspense, pending [] furnishing the required stimulus material, which I understand will be effected on or about 10 October. Once again, this crosses the date (6 October) when the IIRP technical monitor will change and his active involvement in this program would seem appropriate.
